### **DETAILED ACTION**

1. Receipt of the applicant's Amendment filed January 22, 2007 is acknowledged. Claims 1-11 are pending in the application and are provided to be examined upon their merits.

#### ***Drawings***

2. The drawings were received on January 28, 2003. These drawings are approved.

#### ***Claim Rejections - 35 USC § 101***

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

the claimed invention is directed to non-statutory subject matter. The applicant's amendment of "selecting the cost-minimizing bid set identified by said method as winner of said reverse combinatorial auction" remains directed to a judicial exception because there is still no physical transformation of the bid data set which produces a useful, concrete and tangible result. For example, there is no useful structure that is created by the aid of the manipulation of the abstract data [see Warmerdam, 33 F.3d at 1360, 31 USPQ2d at 1759]. Thus the application of the inventive idea remains unpractical where the result "the bid set" remains in the abstract.
